Test Name Result Flag Ref-Ranges Units Site

Anti-Yo (anti-Purkinje cell cytoplasmic antibody)

Interpretation See Note QCRL

NEGATIVE
This test did not detect abnormal levels of anti-Yo antibodies.

Technical Results See Note QCRL

Interpretive Result Table
INTERPRETIVE RESULT: Negative
TEST: anti-Yo
TECHNICAL RESULT: <1:200
REFERENCE RANGE: Serum <1:200

Methods See Note QCRL

Detection of antibodies was performed by automated nanoliter scale immunoassay.

Although rare, false positive or false negative results may occur. All results should be interpreted in the context of clinical findings, relevant history, and other laboratory data.

Comments See Note QCRL

Comments: This result does not exclude a diagnosis of an autoimmune etiology for the neurological symptoms associated with paraneoplastic disorder.

Recommendations: Health care providers, please contact the Athena Diagnostics Client Services Department at 1-800-394-4493 if you wish to speak with a clinical consultant regarding this test result.

Other testing available: Athena Diagnostics currently offers the following antibody tests: anti-amphiphysin, anti-CASPR2, anti-CV2, anti-GAD65, anti-ganlionic nAChR, anti-Hu, anti-LGI1, anti-Ma, anti-Ta, anti-NMDA, anti-Recoverin, anti-Ri, anti-VGCC, anti-VGKC, and anti-Zic4. Please contact the Athena Diagnostics Client Services Department or visit AthenaDiagnostics.com for information regarding additional testing that may be appropriate based on this individual's

LAB: L - LOW, H - HIGH, AB - ABNORMAL, C - CRITICAL, . - NOT TESTED

clinical presentation.

Background information: Paraneoplastic neurological syndromes or disorders (PNS or PND) are rare immune-mediated disorders resulting from nervous system damage due to the remote effects of a tumor. PND of the central nervous system may occur in association with either onconeural antibodies directed against intracellular antigens, or antibodies targeted against neuronal surface antigens. These autoantibodies have been associated with various clinical presentations and malignancies.
