Full Integrated Screen Part 1 (with NT)

Table with 4 columns: Test Name, Result, Unit, Site. Row 1: Interpretation, SeeBelow, WMRL

Full Integrated Screen Part 1 has been completed. Please arrange for another blood sample on 09/01/22 (15 weeks gestation) or as soon as possible after this date.

Additional Test Information: The Full Integrated Screen Part One does not provide risk estimation or a diagnosis.

The PAPP-A test uses a kit designated by the manufacturer as "for research use, not for clinical use". The performance characteristics of this test were validated by Warde Medical Laboratory. The U.S. Food and Drug Administration (FDA) has not approved or cleared this test. The results are not intended to be used as the sole means for clinical diagnosis or patient management decisions. Warde Medical Laboratory is authorized under Clinical Laboratory Improvement Amendments (CLIA) to perform high-complexity testing.

Performing Site:

WMRL: Warde Medical Laboratory 300 West Textile Road Ann Arbor MI 48108 (800)876-6522
