Table with 6 columns: Test Name, Result, Flag, Ref-Ranges, Units, Site. Row 1: Chlamydia trachomatis Testing by PCR, First catch urine, Not detected, Not detected, WMRL.

This test was performed using the Alinity m STI in vitro PCR assay (Abbott Molecular, Inc.). This test is approved for testing endocervical, vaginal, first-catch urine, oropharyngeal swabs, and rectal swabs. The use of this test for other specimens and/or sites has not been validated. The analytical sensitivity of this assay is 17 Elementary Bodies per mL. This test is only intended for clinical monitoring of patients and should not be used for medical-legal purposes or to assess therapeutic success. Confirmatory testing by alternate nucleic acid target has not been performed. A negative result does not exclude the possibility of infection with C. trachomatis.

Performing Site:

WMRL: WARDE MEDICAL LABORATORY 300 West Textile Road Ann Arbor MI 48108

Reported Date: 2023.07.28 8:44 CHPCR

LAB: L - LOW, H - HIGH, AB - ABNORMAL, C - CRITICAL, . - NOT TESTED
