| Total Porphyrins | 32.2 | | 27.0-153.6 | mcg/g creat | QCRL |
| Interpretation | SEE NOTE | | | | QCRL |

All porphyryns tested were within the normal range.

This test may not detect elevated porphyryns if the patient is asymptomatic or is undergoing treatment.

Please be aware that some porphyryns degrade when samples are unprotected from light or are transported at refrigerated or ambient temperature.

Results reported as below reportable range are considered normal as there are no associations between low porphyrin levels and porphyrin disorders.
